Tobar, Inc. supplies seals to our customers from our 30,000 square foot office/lab/distribution center. Our business has grown since 1987 using a combination of premier global and domestic seal sources, combined with our value added concepts. We achieved QS 9000 in 1996, now ISO 9001:2008 approved, our "customer quality gate" inspection system has helped provide World Class PPM rates to our customers. This quality commitment is supported by technical assistance, inventory planning, and attention to detail with PPAP submittals.

We are proud of our staff and our reputation for excellence.
